Special Announcement

Registration Now Open!

2021 Rural Health Voice
Virtual Conference
November 1st - 18th

The Rural Health Voice Conference is an occasion to recognize that health in rural areas is not the sole responsibility of doctors and nurses. Education, economic development, transportation, the built environment, and even social opportunities play a role in the health of individuals and communities. All aspects of the community are providers or barriers to health.

For 2021, VRHA will have a mixed format.

Plenary sessions will be hosted live, but also recorded to review later.

Interactive discussions will have a focus topic, but no formal presentation. Participants will have the opportunity to ask each other questions about how the issue is being addressed locally. Who is doing what? What works? What doesn't?
The interactive discussions will be your opportunity to network with your peers and share information about common situations.

As always, registration for the Rural Health Voice Conference includes VRHA membership fees for the following year. For 2021, that means we are only charging participants for their 2021 membership fees:

**Member:** $75.00

**Non-Member:** $150.00

**Student:** $10.00 (full-time student in any health professions or public policy program)

Registration fees included unlimited access to all of the event presentations.
