Note: "Small Towns/Rural Areas" include non-metropolitan counties with no urban areas of at least 50,000 residents.

Source: County-level Medicaid/CHIP coverage estimates are based on an analysis of 2022-2023 American Community Survey (ACS) Public Use Microdata Sample (PUMS). ACS estimates are not adjusted to address the "Medicaid undercount" often observed when comparing analysis based on Census survey data to the reported numbers of individuals enrolled in Medicaid and CHIP using federal and state administrative data. State administrative data typically shows higher levels of enrollment.
